Global Impact.

CAREER-FIELD MINI CARDS

WHAT YOU DO • WHO IT FITS • HOW AFROTC GETS YOU THERE

EXCEPTIONAL
STUDENTS.
EXTRAORDINARY
OPPORTUNITIES.

PILOT / RATED CAREERS

Lead in the air.

What you do

Fly or support flying missions as an Air Force officer in fields like Pilot, Combat Systems Officer, Air Battle Manager, or Remotely Piloted Aircraft.

Who it fits

Students interested in aviation, teamwork, fast decision-making, and mission leadership.

How AFROTC gets you there

AFROTC develops you as an officer and allows eligible cadets to compete for rated selection and commissioning.

ENGINEERING

Solve mission-critical problems.

What you do

Apply technical skills to aircraft, systems, infrastructure, test, development, and national defense challenges.

Who it fits

Students who enjoy problem-solving, design, innovation, math, science, and technical leadership.

How AFROTC gets you there

AFROTC helps engineering students build leadership skills while preparing to commission into Air Force or Space Force careers.

CYBER

Defend in the digital fight.

What you do

Help protect networks, information systems, and cyber operations that support national security missions.

Who it fits

Students interested in technology, computers, cybersecurity, critical thinking, and fast-changing challenges.

How AFROTC gets you there

AFROTC prepares you for officership while opening pathways to cyber-related Air Force and Space Force careers.

INTELLIGENCE

Turn information into decisions.

What you do

Analyze information, assess threats, support operations, and help leaders make informed mission decisions.

Who it fits

Students who are analytical, curious, detail-oriented, and interested in world events, strategy, and problem-solving.

How AFROTC gets you there

AFROTC builds the leadership foundation to compete for intelligence-related officer opportunities after commissioning.
